y. Management by Objectives. Those of you who attended the Support Officers Conference became well aware of Management by Objectives. On Wednesday, 24 October, we will show the first 2 of 6 film cassettes on MBO. The showing of them will take slightly less than an hour. The titles of these first two are "Focus The Future" and "Management by Objectives" (introductory)? We will show the additional film cassettes on succeeding Wednesdays, one at a time, each lasting 20-30 minutes. These meetings will be held in Room 1E74 at 3 p. m. You will be reminded of the change in meeting room on October 17th.

z. Outstanding GSA Work Orders - Hqs. Building. The handout will give you an idea as to how inundated Logistics is with work orders, bearing in mind these requests are only those within DDO. For those components having more than one work order outstanding, send SSA -DD/M&S a listing of the order in which you would prefer they be done. Please have any input you care to make in our office by COB 9 October. If need be, we can discuss the situation at the next support officers meeting. aa. Outstanding Telephone Work Requests. Regarding telephone requests outstanding, the situation is much the same, with Telephone Facilities Branch having over 130 requests outstanding Agency-wide, and more requests coming in each day. Telephone changes for convenience are put at the bottom of the pile. Needs for [REDACTED] are given higher priority, as are requests where units have no phone service at all. Because of orders dating as far back as last spring, in some instances outstanding phone work requests have become outdated. Please advise us of any such requests which may be canceled. If you have outstanding phone work orders, forward to SSA -DD/M&S by 9 October a listing of them (to include the date submitted) and place them in the order you would prefer to have them completed. We will then approach the Telephone Branch in the hopes of meeting your needs as best they can given the present workload situation. The resultant composite listing will also hopefully assist Telephone Branch in scheduling its work within the DDO, and obviate customers calling Telephone Branch direct.

3. Item of interest from the DDO Staff Meeting - 3 October.

a. Mr. Nelson reminded Division Chiefs that in forwarding papers to the Director of Personnel pertaining to contract hiring, rehired annuitants, PSI's, QSI's, etc. that in no case should these papers contain descriptions of sensitive operational matters. Mr. Nelson said if necessary to justify a personnel action on an operational activity, there should be a separate paper addressed to him explaining this in detail. The paper going to the Director of Personnel would simply state that there is an "operational requirement" for action and contain a place for Mr. Nelson's concurrence.
